## Summary

A Junior web Developer and frontEnd enthusiast with a focus on creating scalable, user-centric web solutions. Leveraging a **Pass with Distinction (80%) in Web Development** and a **Certificate in Full Stack Development from FNB App Academy**, I specialize in HTML, CSS, and JavaScript, with emerging proficiency in React, Tailwindcss and TypeScript. Proven ability to manage end-to-end development cycles through the launch of a freelance digital agency targeting the legal sector. Resilient, self-taught, and committed to technical excellence.

## Experience

### Sesli Blanket Factory & Warehouse

Inventory Systems Assistant

Robertville, Johannesburg, Gauteng

February 2024 - November 2024

- **System Integrity:** Managed digital inventory logs and POS reconciliations with 100% accuracy.
- **Workflow Optimization:** Developed more efficient stock-tracking methods within the warehouse to reduce retrieval times.

<https://sesli.co.za>

### LaunchPad Studio Agency

Lead Web Developer & Founder

Remote

January 2026 – Present

- **End-to-End Development:** Engineered high-performance web templates and custom sites using HTML, CSS, and JavaScript to meet specific client requirements in the legal sector.
- **UI/UX Design:** Implemented user-centric design principles to improve site navigation and conversion rates for professional service firms.
- **Project Lifecycle Management:** Managed the full Software Development Life Cycle (SDLC), from initial client consultation and prototyping to final deployment and maintenance.
- **Client Acquisition:** Conducted market research to identify digital gaps in the South African legal market, successfully pitching tailored web solutions.
- **Technical Optimization:** Focused on responsive design and cross-browser compatibility to ensure a seamless user experience across all devices.

### Bokamoso Recruitment Agency

Technical Admin & Data Coordinator

Eastern Cape, South Africa

August 2025 – December 2025

- **Database Management:** Maintained and optimized a digital candidate database, ensuring data integrity and rapid searchability for high-volume placements.
- **Process Automation:** Utilized basic scripting and digital tools to streamline the applicant intake process, reducing manual entry time.
- **Multilingual Support:** Facilitated technical communication between candidates and recruiters in Sesotho, English, isiXhosa, and isiZulu to ensure clear requirements gathering.
- **Stakeholder Reporting:** Generated weekly placement reports, utilizing data analysis skills to identify trends in youth employment.
- **Digital Literacy:** Acted as the primary point of contact for technical troubleshooting within the agency's applicant tracking system.

## Education
